Watching A Stomach

Was the Means Whereby Science Made Possible the Cure of Dyspepsia.

The Abbe Spallanzani was the first scientist to study systematically the chemical powers of the gastric juice, but it was by the careful and convincing ex-periments of Beaumont that the foundation of our exact knowledge of its com-

position and action was laid.

Beaumont was an army surgeon, located at an obscure military post in Michigan, while it was yet a territory, and was called upon to treat a gunshor wound of the stomach in a Canadian voyageur—Alexis St. Martin. When the wound healed a permanent opening was left by means of which food could be ing meeting of Lynchburg's citizens last
